EDUCATION

Rutgers University — New Brunswick, NJ

Bachelor of Science in Computer Science | *Expected May 2026*

GPA: 3.2

Relevant Coursework: Database Systems, Data Science, Software Engineering, Algorithms & Complexity, Numerical Analysis

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML/CSS, MATLAB

Frameworks & Libraries: FastAPI, Flask, React, pandas, httpx, requests, psycpg2, asyncio

Databases & Caching: PostgreSQL, Redis

Concepts: RESTful API design, async programming, database normalization, caching strategies, CRUD, version control

PROJECTS

Stock Market Aggregator | *FastAPI, React, Redis, Alpha Vantage API, News API*

- Built a full-stack web application aggregating real-time stock data and financial news from multiple third-party APIs
- Implemented a Redis caching layer that reduced response times by 90% and kept usage within upstream API rate limits
- Designed a RESTful API using httpx and asyncio to issue concurrent HTTP requests, with CORS configuration and input validation

NBA Odds Tracker | *Flask, PostgreSQL, The Odds API, Python*

- Built a sports betting odds aggregator integrating real-time data from The Odds API into a PostgreSQL database
- Designed a normalized relational schema with foreign key constraints across games, odds, and sportsbooks tables
- Implemented a transformation pipeline (decimal-to-American odds, UTC-to-EST) with idempotent refresh to prevent duplicates

Job Application Tracker | *Flask, PostgreSQL, Jinja2, HTML/CSS*

- Developed a full-stack CRUD application for tracking job applications, interviews, and status changes
- Designed a normalized 11-field relational schema and built RESTful routes with transaction management using psycpg2
- Created dynamic Jinja2 templates with sort and filter capabilities on the frontend

EXPERIENCE

Sales Associate — Quiksilver *March 2023 – Present*

- Deliver customer service and product recommendations in a high-traffic retail environment
- Operate point-of-sale system and process transactions accurately while collaborating with team to meet sales targets
